

Flexible website packages – everything you need to get your business online

3 Flexible website packages. Choose from Bronze, Silver or Gold, together with a number of optional extras. Everything you need to get your business online is included.

BRONZE PACKAGE

Suitable for businesses with a low budget, the Bronze package provides everything you need for a basic 2 page website, consisting of a home page plus 1 other of your choice.

SILVER PACKAGE

The Silver package offers much the same as the Bronze package, but with more pages at your disposal you can say more about your business and the products and/or services you offer.

GOLD PACKAGE

The Gold package provides the most flexibility out of the 3 packages. The sheer number of pages will mean your website oozes with vibrant content, possibly existing on multiple levels.

As interest grows in your website, invariably you will want to expand it. The ability to upgrade your website package, or include optional extras (see table opposite), is another feature available with all 3 packages.

PLEASE NOTE

Due to the competitive nature of our pricing structure, we must place a restriction on the amount and type of content found on each web page. The limits are as follows:

- 400 words of text
- 4 images

All prices quoted are based on you supplying all relevant text and images.
